

ISO 9001:2015 Certificate

Certificate of Registration – Quality Management System

This is to formally certify that:

eTranz Systems

4312 Saddle Ridge Blvd

Wimberley, TX 78676

USA

has successfully undergone an in-depth evaluation and audit process and has been officially certified as compliant with the rigorous international standards outlined by:

ISO 9001:2015 – Quality Management System

This certification validates that the company has established, implemented, and maintains a robust quality management system that consistently meets customer and regulatory requirements. It confirms eTranz Systems' capability to consistently deliver products and services that enhance customer satisfaction through the effective application of the system, including processes for continual improvement and the assurance of conformity to customer and applicable statutory and regulatory requirements.

Scope of Certification:

The design, engineering, manufacturing, quality control, and global distribution of electrical components and systems, specifically tailored for transit and industrial infrastructure projects.

This certificate demonstrates our dedication to quality, customer focus, and continuous improvement in every aspect of our operations.

Certificate Number: ISO9001-12345

Date of Initial Certification: April 17, 2025

Valid Until: April 17, 2028

Issued By: GlobalCert International

Accredited By: International Accreditation Forum (IAF)

Signed:

Jonathan M. Reynolds

IEC 60947-2 Certificate

Certificate of Conformity – Low-voltage switchgear and controlgear – Circuit-breakers

Certificate of Conformity is hereby granted to:

Product Name: E-MCCB Series

Model Numbers: E-MCCB100 / 200 / 400 / 800

Manufactured by: eTranz Systems

Production Facility: Wimberley, TX, USA

This document certifies that the above-mentioned products have been thoroughly tested and verified in accordance with the international standard:

IEC 60947-2 – Low-voltage switchgear and controlgear – Part 2: Circuit-breakers

The tests were conducted under stringent laboratory conditions to evaluate electrical performance, fault interruption capabilities, endurance under operational stress, and conformity to international safety benchmarks.

This certificate confirms compliance with:

- Short-circuit performance up to 65 kA
- Mechanical and electrical durability
- Overcurrent protection integrity
- Dielectric strength and insulation resistance

These certified MCCBs are qualified for AC and DC applications and meet isolation, protection, and control functions across multiple operational contexts in transit systems and commercial infrastructure.

Certificate Number: IEC60947-2-67890

Date of Issue: April 17, 2025

Tested By: PowerTech Labs Inc.

Certified By: GlobalCert International

UL 489 Certificate

Underwriters Laboratories Certificate of Compliance – Molded-Case Circuit Breakers

Underwriters Laboratories Inc. hereby certifies that:

Product Name: E-MCCB Series

Series: E-MCCB Series

Manufacturer: eTranz Systems

has been thoroughly examined, tested, and found to be in full compliance with:

UL 489 – Standard for Molded-Case Circuit Breakers, Molded-Case Switches, and Circuit-Breaker Enclosures

This standard defines comprehensive safety and operational benchmarks for low-voltage overcurrent protection devices used in industrial and commercial applications. The certification ensures the product's reliability under fault conditions, fire safety, insulation performance, and mechanical endurance.

UL evaluation included:

- Short-circuit withstand testing
- Dielectric and insulation verification
- Endurance testing over lifecycle simulations
- Environmental and material safety analysis

Product Category: Circuit Protection

Application: Commercial and Industrial Electrical Distribution Systems

Certificate Number: UL489-24680

Issued: April 17, 2025

Control Number: UL-CN-56789

Authorized by: Underwriters Laboratories (UL)

Signed:

Edward T. Blackwell

RoHS Compliance Certificate

Certificate of Compliance – Directive 2011/65/EU (RoHS 2) Restriction of Hazardous Substances

This is to affirm that:

Product: E-MCCB Series

Manufacturer: eTranz Systems

Manufacturing Location: Wimberley, TX, USA

has been reviewed and confirmed to be in full compliance with the European Union's Restriction of Hazardous Substances Directive 2011/65/EU (RoHS 2), including the subsequent amendment Directive (EU) 2015/863.

This directive restricts the use of certain hazardous substances in electrical and electronic equipment to reduce environmental and health risks. The certified products were tested for the presence of the following substances and found to be below the permissible threshold levels:

- Lead (Pb)
- Mercury (Hg)
- Cadmium (Cd)
- Hexavalent Chromium (Cr6+)
- Polybrominated Biphenyls (PBB)
- Polybrominated Diphenyl Ethers (PBDE)
- Bis(2-ethylhexyl) phthalate (DEHP)
- Benzyl butyl phthalate (BBP)
- Dibutyl phthalate (DBP)
- Diisobutyl phthalate (DIBP)

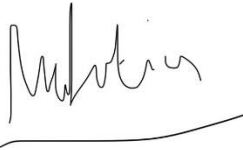

This compliance underscores eTranz Systems' commitment to sustainability, environmental protection, and adherence to global product safety standards.
